# Our Team

We are a set of high energy individuals with a wide network of highly skilled and experienced self-managing professionals with a great aptitude to learn and accept new challenges. Our motto of life is to "LIVE FOR THE DAY". We started our product journey with the onset of the great and ongoing pandemic "CORONA" which has indeed changed people's perception about life & living. Work from home was a challenge for all of us in the initial days. As it stated becoming the new norm, we adapted and found innovative ways to become more efficient.
